Figure 35. Geologic section of the pre-Cambrian rocks and the infolded and interfingered Paleozoic rocks from the Northampton County area of Pennsylvania. The section is located in the southern part of the county, near the town of Hometown. The section is exposed in a cut behind the Reading Railroad roundhouse north of Hometown about one mile.

NORTHAMPTON COUNTY

Figure 36. Section exposed in the western end of the low ridge one mile north of Hometown.

Figure 37. Section exposed in the western end of the low ridge one mile north of Hometown.
